Abstract (en)
A display apparatus and a home appliance including the display apparatus are provided. The display apparatus includes a display unit, a transparent protection layer configured to be disposed on a front surface of the display unit and has a wider area than an area of the display unit, a half mirror layer configured to adhere onto a back surface of the transparent protection layer, reflect a portion of external light, and transmit light diffused from an image display area of the display unit, and a printing layer configured to be formed on a back surface of the half mirror layer and cover the display unit. A color of a background displayed in an image display area of the display unit in response to the display unit being turned on is equal to a color of the printing layer.
