Abstract (en)  
[origin: WO2015169437A1] The invention relates to a module cover (40) for an airbag (10) and/or an airbag module for arranging under a vehicle roof (56), in particular in the region of an upper windshield pane edge. The module cover (40) comprises a module cover panel (41) with a rear face (42) which faces towards the vehicle roof (56) when in use and a front face (43) which faces away from the vehicle roof (56) when in use. According to the invention, the module cover panel (41) comprises an elongated gap section (44), which is preferably formed over the entire width (B) of the module cover panel (41), in the form of an elongated indentation (45), which is formed in the front face (43) of the module cover panel (41).
