Abstract (en)  
[origin: WO2015169842A1] The invention relates to a cover for a substrate, consisting of sheets made of a metallic material, wherein the sheets are fitted together and are connected to one another at their edges, wherein the sheets have turn-ups along their fitted-together edges and are integrally connected to one another in the region of the free ends of the turn-ups with interposition of a bonding strip.
