Abstract (en)

[origin: WO2015169639A1] The invention relates to a lock assembly (10) of a body element (12) of a vehicle body (14), in particular of a front hood, which body element is to be opened, comprising a lock case (16) arranged on the vehicle body (14), which lock case has a first locking means (20) and a second locking means (22) that is arranged on the body element (12). According to the invention, the lock case (16) is movably retained on the vehicle body (14) and a support (30) is provided on the lock case (16), by means of which support the lock case (16) is to be moved on the vehicle body (14) by the body element (12) when the lock assembly (10) is closed.
