Abstract (en)
[origin: WO2016005251A1] The invention relates to a grill-type electric cooking appliance (1) that can be placed on a table and can hold food items between a top part and a bottom part when in use. Said cooking appliance comprises a base (2) as well as removable and reversible lower (3) and upper burners (4) that are each heated by a lower heat diffuser (5) and an upper heat diffuser (6) with which the burners are in contact and which comprise heating resistors (7) that are integrated into the diffusers.
