Abstract (en)
[origin: EP3147408A1] Disclosed are a marine foundation and a construction method thereof. The marine foundation of the present invention includes a self-weight control tank unit moving while floating at sea level and submerged and installed on the ocean floor when seawater is supplied thereto, a monopod unit installed on the self-weight control tank unit to be lowered and connected to a marine structure, a guide bucket unit installed under the monopod unit and mounted on the ocean floor by discharging seawater, and a leg unit installed under the self-weight control tank unit.
