Abstract (en)

[origin: WO2015180819A1] The present invention relates to polymerisable compounds comprising a carboxamide or sulphonamide group, to processes and intermediates for the preparation thereof, to liquid-crystal (LC) media comprising them, and to the use of the polymerisable compounds and LC media for optical, electro-optical and electronic purposes, in particular in LC displays, especially in LC displays of the polymer sustained alignment type.
