Abstract (en)

[origin: CA2949726A1] The invention relates to an installation block (13) for dry walls comprising at least one through-hole (26) for passing a cable, pipe, or the like through. Furthermore, the installation block (13) comprises two installation block parts (13a, 13b), which are joined together and have a separating plane T, which intersects with the at least one through-hole (26). The invention further relates to a dry-construction wall (10) and to a method for installing an installation block (13).
