Abstract (en)
[origin: WO2015185884A1] There is provided a respirator (10) having a neck portion (14) for encircling around a neck of a wearer and a helmet portion (18) for encircling around a helmet (5) of the wearer (1). The respirator (10) extends between the neck (14) and helmet (18) portions so as to fully enclose a head of the wearer (1) when the respirator is deployed, and the respirator (10) is packable into a packed configuration by moving the helmet portion (18) down the head to meet the neck portion (14) at the neck, or by moving the neck portion up the head to meet the helmet portion at the helmet
