Abstract (en)

The present invention relates to a firearm trigger arrangement comprising: a linear rail guide (104) comprising a rail (106) and a carriage (108), wherein the linear rail guide (104) comprises a linear rolling-element bearing (110), and a trigger (112), wherein the trigger (112) is supported by the linear rail guide (104) and whereby a linear sliding motion (114) of the rail (106) and carriage (108) relative to each other is provided in response to a pulling of the trigger (112). A firearm trigger system (308), and a firearm (102) comprising the firearm trigger system (308) is further provided.
