Abstract (en)
[origin: WO2015189105A1] The invention relates to a connecting clip (1) for connecting two pipelines (5, 6), comprising a first clip arm (11), which is designed to extend at least partially around a circumference of a first pipeline (5), and a second clip arm (12), which is designed to extend at least partially around a circumference of a second pipeline (6), wherein the first and the second clip arm (5, 6) are connected to one another in a damping manner, and at least one metal mat is provided as damping element (20).
