Abstract (en)

A dampened opening guide for sliding parts of pieces of furniture, such as drawers or the like, which comprises a fixed part (12) of the guide, constrained to a piece of furniture (14), and a movable part (13) of the guide, constrained to a drawer (15), said fixed part (12) of the guide and said movable part (13) of the guide being produced as two pairs arranged on opposite sliding parts of the drawer (15), a cage-like sliding element (16) being interposed between each fixed part (12) and each movable part (13), wherein said movable part (13) of the guide provides a rear stop (22) for the maximum opening of the drawer, in which close to said rear stop (22) the guide provides a damper (23) which is yielding, is positioned on said movable part (13) of the guide and, when the drawer is being opened, acts on a rear stop (24) of said cage-like sliding element (16).
