Abstract (en)

[origin: WO2015198166A1] The present invention concerns a label comprising an embossed substrate and a wet glue, wherein the wet glue is applied directly onto the back of the substrate and wherein the wet glue is prevented from contacting the embossed regions of the substrate, and a method of applying a label comprising an embossed substrate to an article using a wet glue, comprising the step of applying the wet glue directly to the back of the substrate before the label is applied to the article, wherein the wet glue is prevented from contacting the embossed regions of the substrate.
