Abstract (en)

[origin: WO2015194960A1] A terminal (10) for a ventilation duct (5, 7) of a ventilation system (3) is provided. The terminal comprises a rear wall (22) defining a ventilation opening (V) for an air flow (A) of the ventilation system. The terminal comprises a luminaire (20), wherein at least part of the luminaire is located in front of the rear wall (22), spanning the ventilation opening (V) to control, in particular guide and deflect, an air flow (A) from the ventilation opening and to cover and obscure the ventilation opening. A building is also provided.
