Abstract (en)

[origin: WO2015198241A1] A safety lining (10) for safety footwear (11), of the type provided with an insert (12) for protecting the region comprised between the tibia and the toes, closed in a pocket (14). The insert (12) has a sandwich-like structure that comprises in succession: - at least one cut-resistant external layer (19), which is preset to cause the slipping and slowing of a toothed chain of a chainsaw that is penetrating the safety footwear (11), - at least one internal layer (20) for blocking the movement of the chain.
