Abstract (en)  
[origin: WO2015199537A1] The invention relates to the field of therapies for and prevention of mental disorders, more particularly therapies for depression, burn-out and cognitive disorders. Specifically, the invention relates to a new mineral composition comprising magnesium glycinate, zinc glycinate and selenium methionine, possibly combined with chromium picolinate, taurine and/or vitamin B6, useful in such therapies.
