Abstract (en)

[origin: WO2016000743A1] The present invention relates to a holder (1) for securing a fan assembly (2) cooling a condenser (4) of a refrigeration appliance (3) comprising a compartment and a circuit for refrigerating the compartment. The holder (1) of the present invention is provided in form of a plug-type holder (1) comprising a body (9) separately provided from the evaporator tray (8). The body (9) includes a support base (10) for mounting the fan assembly (2), a plug (11) for attaching the body (9) directly to a refrigerant tube (5) of the condenser (4).
