Abstract (en)
[origin: EP3165673A1] The invention relates to a production line for producing special fiber web grades, especially machine gazed fiber web grades, which production line comprises a forming section comprising a head box (100) and a forming unit (200), a press section (300), a drying section comprising a Yankee dryer (500), a calender (700) and a reel-up (800). The Yankee dryer (50) comprises a reversed Yankee cylinder (50) and that the top surface of the fiber web (W) is against the surface of the Yankee cylinder (50).
