Abstract (en)
A smoking article (1) comprises a smokable rod (2) and a dual filter (4) including a rod-sided filter section (6) comprising a filtering material and an adsorbent as well as a mouth-sided filter section (8). The mouth-sided filter section (8) has a mouth-sided first end (12) and a second end (13), has a first lateral area (16) starting at the first end (12) and a second lateral area (17) ending at the second end (13), and comprises a filtering material (10). A plurality of flutes (20) is arranged at the first lateral area (16) only, which extend from the first end (12) and run generally longitudinally. A plurality of ventilation holes (32) is arranged at the second lateral area (17). The flutes (20) are not vented by ventilation holes arranged at the first lateral area (16).
