Abstract (en)  
The invention relates to a cleaning unit (3) for cleaning packs (6) in a packaging machine (1). The cleaning unit (3) comprises a guiding track (7) for guiding said packs (6) in said packaging machine (1), and at least one fluid emitting element (8) arranged in connection with said guiding track (7). The at least one fluid emitting element (8) is arranged to emit fluid onto said packs (6) travelling along said guiding track (7), so as to clean an outer surface of said packs (6). The invention also relates to a packaging machine (1) and a method for producing packages.
