Abstract (en)
[origin: WO2016012526A1] The invention relates to a finishing device (10) comprising a pressing arm (18, 20) and a pressing tool (62) for pressing a finishing tool against a workpiece. Said device is provided with a first connecting device (46) for connecting a base support (44) to the pressing arm (18, 20), a second connecting device for connecting the base support (44) to the pressing tool (62) and a setting device for setting the orientation and/or position of the base support (44) on the pressing arm (18, 20). The invention further relates to a method for setting up a finishing device (10).
