Abstract (en)

A container accessory for a container having walls is provided. The container accessory (100, 200, 300, 502, 504, 506) comprising an accessory body (102, 202) arranged to be attached to an opening portion (104, 204) of a container (106, 206) such that an interface (108, 208) is formed between the container accessory (100, 200, 300, 502, 504, 506) and the opening portion of the container (106, 206), and a light source (110) arranged to emit light (112), via the interface (108, 208), into the walls (114) of the container (106, 206). A system (500) comprising a plurality of container accessories (502, 504, 506) is further provided.
