Abstract (en)

[origin: US2016032567A1] A wear member including a body having front, rear, top, bottom, inner side and outer side portions. The wear member includes a front bottom edge, a front top edge parallel to the front bottom edge, a front inner side edge, and a front outer side edge. The wear member includes a front face defined on the front portion extending between the front inner side edge, the front outer side edge, the front top edge, and the front bottom edge. A lower wear indicator groove is formed in the front face parallel to the front bottom edge, and a lower wear face is defined between the front bottom edge and the lower wear indicator groove. The body mounts to the earth-working implement to dispose the lower wear face between a mounting edge and a work surface.
