Abstract (en)
Display container with an elastic band, easy to form, in which products are stacked horizontally, formed by a quadrangular cardboard sheet with a first side from which emerges a first tab, in parallel and sequentially arranged are second, third, fourth and fifth sides, which correspond to folding lines, on each side of the sheet are arranged fifth and sixth folding lines, a breakline is arranged along the sheet and parallel to the sixth side, guide orifices are made for the elastic band such that when the container is formed the first tab coincides with the fifth side such that when the breakable upper portion is separated by the breakline the elastic band will exert a constant traction force pulling the products towards the anterior face of the container.
