Abstract (en)

[origin: WO2016020325A1] The invention relates to a packaging unit and an associated method for producing a packaging unit (1) made of individual products (2) combined into a product formation having a product height (H), which are fixed in relation to each other by means of a shrunk-on film (4), wherein the shrunk-on film (4) comprises at least two opposite end-side openings (4a, 4b). A flat covering element (8, 8*, 9) is particularly advantageously provided for almost fully covering at least one of the end sides (1a, 1b), wherein said covering element is fixed on the product formation in the region of at least one end side (1a, 1b) before the film (4) is shrunk on.
