Abstract (en)  
[origin: EP3178336A1] An object of the present invention is to provide sports pants having improved heat releasing effect. A pants main body has vent openings (7) on a surface side thereof; cover flaps (8) which are made of a body fabric having a higher bending resistance than that of the pants main body, are longer than a longitudinal length of the vent openings (7) and cover the vent openings (7). The pants main body has air vents (10) on its back, for releasing air which was introduced inside the pants main body.
