Abstract (en)

[origin: WO2011151520A1] The invention relates to an L-profile shaped element. According to the invention the L-profile shaped element is formed as a monolithic piece, and the L-profile shaped element (1) includes a first (2) and a second (3) leg, wherein the legs (2, 3) are arranged to have substantially the same thicknesses, at least one edge of each leg is provided with joint parts (13) functioning in the substantially same manner, and the element (1) can be turned to a desired position. In addition, the invention relates to the use of the L-profile shaped element and to a method for installing L-profile shaped elements.
