Abstract (en)
[origin: WO2016023649A1] The invention relates to a transport rack and/or storage rack (1) for standing transport and/or standing storage of plate-shaped goods (2), in particular windows or doors, having at least two support elements (4), wherein a standing strip (6) is arranged on a first end (41) of each of the support elements (4), which standing strip is removably fastenable, resting on a floor plate (3), in particular a pallet, wherein the support elements (4) are connected to each other by at least one crossbar (5) which can be placed on the support elements (4) and the standing strip (6) is aligned perpendicularly to the crossbar (5), wherein the support elements (4) are designed as single or multi-part plates, having two leaning edges (44, 45) approaching each other at an acute angle away from a base side (42, 412) arranged on the standing strip (6). The invention further relates to alternative transport racks and/or storage racks (1) and to an arrangement of a transport rack and/or storage rack (1) on a floor plate (3).
