Abstract (en)

[origin: WO2016026520A1] The invention relates to a suspension unit for a curtain device comprising at least one curtain guide and at least one curtain that is suspended on a plurality of said suspension units with a guide element (3) for guiding the suspension unit in said curtain guide. The suspension unit comprises an element (1) to which a curtain suspension (2) for securing a curtain to the suspension unit, and said guide element (3), are connected. At least said element (1) consists of at least two different material sections (20, 30) which differ in terms of hardness.
