Abstract (en)
[origin: US2016052676A1] A carton for holding a plurality of articles. The carton can comprise a plurality of panels comprising at least a top panel and a side panel. A plurality of end flaps can be respectively foldably connected to respective panels of the plurality of panels, can be at least partially overlapped to at least partially form a closed end of the carton, and can comprise at least a side end flap foldably connected to the side panel along a first fold line. A handle can be formed in the closed end of the carton for grasping and carrying the carton. The handle can extend in at least the side end flap. A reinforcing flap can be foldably connected to the side end flap along a second fold line, and the reinforcing flap can at least partially overlap the side end flap for reinforcing the handle.
