Abstract (en)

[origin: WO2016026754A1] The invention relates to an operating device for a domestic appliance (1), comprising an electronic display field (11) and an operating element (13), which can be moved in relation to the display field (11) in order to set operating conditions of the domestic appliance (1), wherein the operating element (13) has a front part (17), which has a top side (18) inclined inward. The invention further relates to a baking oven (1) having an operating device (10).
