Abstract (en)
[origin: CN106894473A] The invention relates to a sanitary water outlet fitting. The sanitary water outlet fitting is provided with a shell base (2) and a water outlet body (7). A sanitary water outlet fitting according to the present invention includes a housing base (2) having a wall opening (3) in the shell body (4). In addition, the water outlet fitting includes a coupling joint (5) fixed at the opening of the wall. The coupling joint has a channel opening (6) that is in fluid communication with the fluid discharge port of the housing substrate. The water outlet fitting comprises a water outlet body (7), wherein the water outlet body is fixed in the axial direction of the connecting joint, and the channel opening is fed into the water outlet body. For example, as a faucet for a wash basin.
