Abstract (en)

A novel furnishing for encasing a fire blanket (200) comprises a case (100), in the lower part of which is an opening, from which the fire blanket (200) is removable by pulling on the straps (201) of the fire blanket (200). The case (100) is arranged to encase the fire blanket (200) in such a way that the fire blanket (200) is configured to be spread open without opening the case (100). The upper part of the case (100) has an opening, from which the extinguisher (300) encased by the case (100) may be ejected so that the case (100) is configured to encase the extinguisher (300) in such a way that the extinguisher (300) can be taken into use without opening the case (100).
