Abstract (en)

[origin: WO2016038260A1] The invention relates to an arrangement (1) of a mobile support (2) built into the front (3) of an instrument panel (2) of a vehicle, for holding a multimedia device, characterised in that the mobile support (2) comprises a stationary holding means (31) and a first detachable holding means (32) for holding a multimedia smartphone-type device that may be hidden away so as to be able to hold a multimedia tablet-type device on a second adjustable holding means (35). The invention is applicable in the field of instrument panels (4) for vehicles.
