Abstract (en)

[origin: WO2016028889A1] Systems and methods for processing payment transactions involving reward accounts are disclosed. One exemplary method includes receiving an authorization request for a payment transaction involving a reward account. The authorization request includes at least a transaction amount. The method also includes determining, based on the reward preference, whether the payment transaction is eligible for a reward rebate and transmitting a request for the reward rebate when the payment transaction is eligible.
