Abstract (en)  
[origin: US2017202357A1] The present invention relates to a seating/reclining furniture arrangement comprising at least one seating/reclining unit and a supplementary module fastened to the seating/reclining unit. The supplementary module has a base and a top part. The top part can be moved between a closed position and an access position, with a functional region provided at the base being accessible in the access position of the top part.
