Abstract (en)
[origin: CN106978660A] The invention relates to a sectional warp beam and a creel of an assembling device. Specifically, the sectional warp beam (1) is provided with a core (2) and two side disks (3, 4) at both end portions of the core (2). The sectional warp beam facilitates the preparation of thread pieces for assembling. For this purpose, the sectional warp beam (1) has a clip (6) and a fastening device by means of which the clip (6) can be secured between the side disks (3, 4).
