Abstract (en)

Dust cover for lock cylinder key channels, of the type used in locks situated in environments exposed to dust and that uses gates to seal and prevent the entry of such particles of dust or dirt via the key channel of the lock, wherein each of the dust cover gates (1) is associated with a permanent magnet (2), said gates being housed in a transverse groove (6) incorporated in the rotor (5), said groove (6) being transverse to the main axis (3a) of the lock cylinder (3) in which the dust cover gates (1) are housed face-to-face with each other and with their line of contact (1 b) centred in the key channel (8).
