Abstract (en)

The invention subject to the application is related to a smart recording, control and warning system which determines the traffic lights, speed of vehicles and traffic violations and records them, provides green wave function in the shortest time possible, at the direction of the vehicles which have right of way, and which can operate not only for a single crossroad but in coordination with other crossroads nearby which enables to control the relationship of traffic in each crossroad and to submit the necessary warnings to the related posts.
