Abstract (en)

[origin: WO2016043688A1] The invention of the application relates to a multi-purpose vest completely convertible into a bag with an additional inner volume in terms of appearance, durability, ease of carrying and capacity, which is suitable for the use of all kinds of professionals (hunters, fishermen, technical service personnel, law enforcement personnel, etc.) which need to keep various materials on hand, change them and carry them from one location to another due to occupational requirements, yet is especially developed for the use of photographers and members of the press/media having to carry considerable amounts of large and small technical equipment and having to travel this way most of the time because of their profession.
