## Abstract (en)

[origin: WO2016044930A1] Titanium-based compositions as well as titanium composites such as carbide- reinforced titanium composites are disclosed herein. More specifically, composite materials comprising a titanium metal matrix and titanium carbide dispersed in the matrix are disclosed. The composite materials comprise about 0.5 wt. % to about 3.0 wt. % of carbon, based on the total weight of titanium and carbon in the composite materials. Compositions comprising a titanium-based powder and at least one of a carbon-based material and a binder are also disclosed. The compositions comprise about 0.5 wt. % to about 3.0 wt. % of carbon-based material, based on the total weight of the titanium-based powder and the carbon-based material.
