Abstract (en)

[origin: WO2016048256A1] The present invention relates to a system which enables to connect the grills in order to enable a larger amount of air passage through the front bumper grill of vehicles. The grill connection system (1) of the present invention essentially comprises at least two grill combs (2), at least one grill frame (3) for fixing the grill comb, at least one grill connection apparatus (4) which has a protrusion on one end thereof for attaching one of the grill combs (2) and which has a "C" form section, at least one air channel (5) which enables air to enter inside through the grill combs (2), at least one vehicle cooling group (6) to which the air passing through the air channel (5) reaches.
