Abstract (en)
[origin: WO2016045649A1] The present invention relates to packaging (2) that is closed by a cap, wherein a seal (1) made of thermosetting polymer is attached to the cap, said seal (1) preferably being in contact with the packaging, wherein the seal is not removable from the cap and/or the packaging without destruction and the seal comprises means for identifying the originality of the packaging, means for registering input of thermal energy and/or means for detecting that a defined temperature has been exceeded.
