Abstract (en)
[origin: EP3199058A1] A collapsible supporting structure (10) includes a tabletop (12), a first pair of collapsible legs (26), and a second pair of collapsible legs (34). The second pair of legs (34) includes a first support bar (36) for connecting a third leg (33) to a fourth leg (35) and a second support bar (44) spaced apart from the second support bar (36) for connecting the third leg (33) to the fourth leg (35). One or more brackets (38) are disposed adjacent the bottom surface (16) of the tabletop (12) and are positioned and configured to removably secure the first support bar (36) to the bottom surface (16) of the tabletop (12) in a use position and removably secure the second support bar (44) to the bottom surface (16) in a storage position. Each of the legs (25,27,33,35) of the first and second pairs of collapsible legs (26,34) is of a length that is greater than a distance between first and second ends (18,20) of the tabletop (12).
