Abstract (en)
The present invention relates to a portable power distribution assembly (1) comprising a power distribution unit (3) and a cabinet (5), said cabinet (5) having an access opening (7) for access to the interior (9) of the cabinet (5). The cabinet (5) further comprises a mounting opening (23) through which a component carrier (29) of the power distribution unit (3) is insertable to a mounted position, wherein a base portion (27) of the power distribution unit (3) is configured to, together with said cabinet (5), form a housing (47) accommodating the component carrier (29) of the power distribution unit (3) when the component carrier (29) is in the mounted position.
