Abstract (en)

A blister pack (1) for sanitizing products for sanitary fixtures and the like comprises a protrusion (2, 12) adapted to define a cavity (3) that protrudes from a flat region (5) of the blister pack and which is closed by a film (21), the protrusion (2) being adapted to exert a thrust action against a sanitizing product (4) accommodated inside the cavity (3) when the blister pack (1) is gripped by a user; the film (21) comprises a proximal portion (22) which is heat-sealed to the flat region (5) and a distal portion (23) which is not heat-sealed to the flat region (5).
