Abstract (en)

[origin: WO201605554A1] The invention relates to a method for packaging articles (1) in bubble wrap (P), said bubble wrap consisting of a receiving part (2) for receiving the article (1), said receiving part being closed by a strip of material (5) after receiving the article (1). Said receiving part (2) must be at least partially adapted to the article (1) which is to be packaged.
