Abstract (en)

[origin: WO2016055310A1] The present invention relates to a laundry care appliance (100) for the care of laundry, said laundry care appliance (100) comprising an inner tub (105) for accommodating laundry, a load detection device (107) for detecting a laundry load of the inner tub (105), an ozone producing unit (109) for producing ozone, and a control device (108). The control device (108) is designed to determine an amount of ozone depending on the detected laundry load of the inner tub (105) and the ozone producing unit (109) is designed to produce the determined amount of ozone.
