Abstract (en)

[origin: WO2016055955A1] A weir module (100) is provided for releasable attachment to a pyrometallurgical furnace (10) that includes at least one weir attachment section (120). The weir module (100) comprises a discrete structure to the furnace (10), and the weir module (100) includes at least one furnace engagement section (130) which is releasably engageable to at least one weir attachment section (120) of the furnace (10).
