Abstract (en)
The invention refers to a decorative accessory for footwear that is easy to shape, to install, to remove, to interchange between different footwear models, to reposition on the footwear, to transport and that does not damage the footwear on which is applied. All above without the need of tools nor to make changes to the footwear. All above peculiar characteristics allow user to self install the accessory almost in every location at any time. The decorative accessory subject of the present request has been developed for the market of footwear.
